

## *Curriculum Vitae*

Sandra Piazolo

*Dec. 2007*

### Current Position:

Since 2004 Senior Lecturer of Tectonics and Structural Geology at the Department of Geology and Geochemistry, University of Stockholm. Permanent position.

### Education

Dec. 2005 Docent in Geology, Department of Geology and Geochemistry, Stockholm.

Jan. 2001 PhD („magna cum laude“) in geology within the “Graduiertenkolleg“ (graduate school): “Composition and Evolution of Crust and Mantle“ at the University of Mainz, Germany. “Shape fabric development during progressive deformation“.

Oct. 1997 “Diplom” (MSc) in Geology at the University of Freiburg, Germany; “Geological and petrological investigations in Central Dronning Maud Land: Implications for Gondwana reconstructions”

### Professional experience

Aug. ‘02 – Oct. ‘04 Marie Curie research fellow at the Department of Earth Sciences, University of Liverpool, UK. Project: “Quantification of Deformation Microstructures.”

May ‘01- July ‘02 Project researcher at the Department of Geological Mapping, Geological Survey of Denmark and Greenland (GEUS), Denmark. Project: “The metamorphic and structural history of the Northern Naggstoquidian Orogen, West Greenland”.

April 2001 Postdoctoral fellow at the „Graduiertenkolleg“, University of Mainz, Germany. Project: “Numerical Simulations of 2 phase polycrystalline materials during dynamic recrystallization”

Febr. - March ‘01 Project researcher: fluid inclusion analysis – microthermometry project together with the German Department of Resources and the University of Mainz, Germany

### Maternity leave

May – Oct 2004 100 %

Jan.- June 2006 100 %

Oct.-Dec. 2006 100 %

Jan.-May 2006 50%
